

Dear Cal:

I just wanted to thank you for a job well done on the refortification and retrofitting of our parking structure. As I indicated to you previously, most contractors told us to back away from such a project and to not even consider such a venture. There were others who would not even walk through the structure.

At this point everyone is pleased with the outcome from the owner on down to the doctors and patients. You are to be commended for doing such a great job and for carrying off what seemed to be an impossible task. All of your work was very professional and I did appreciate working with your foreman and for his excellent scheduling skills. You were right on the money on your dates for completion and everything else that we asked for.

Should we involve ourselves in another project of this nature I will certainly call you.

Best of luck.

Sincerely,
